2025 Youth work camp in Lushoto Tanga Tanzania

The New Age Foundation organizes a youth work camp every year since 2006. The goal of the Youth Camps is to enable young Tanzanians and young people from foreign countries to stay and work together for 3 weeks to learn the cultures of participating countries. Along with learning and sharing, also young people contribute manpower in community activities for development work

Every year there are different activities according to the need of the matter in the respective community, for example, environmental work, education, health, democracy, and so on. The goal of the work camp for the year 2025 is to grow about one million (1,000,000) native tree seedlings. The seedlings are expected to be planted in 2026 in the damaged forests owned by the North Eastern Diocese. So this year's work camp, The New Age Foundation is organizing in collaboration with the North Eastern Diocese of the Evangelical Lutheran Church in Tanzania

The theme of the work camp 2025: ***Young people are an important agent in the fight against climate change***
